

**POWERWARE**
**Comments & Notes:**

1. Competitor models listed are current based on info given on competitor's website. Please contact us for cross reference to older models.
2. Various Extended Run-Time Battery Pack configurations are available for applicable models. Please contact us for details or your specific requirements.
3. xx = Input / Output voltage where 01=120V 02=230V (230V models may have a longer lead-time)
4. Some models shown may not be part of our standard offering but available to order.

Competitor Model	Competitor Part #	Marathon Power Model	Marathon Power Part #	Notes / Comments
<b>Strip UPS, Stand-by technology, stepped sine-wave output on battery</b>
